Please use this worksheet to calculate your Additional Farm Membership costs

<p>E. Sliding Scale Adjustment <i>The cost of membership in the Community Farm of Ann Arbor is on a sliding scale. For the sake of simplicity we are basing the Harvest Kitchen price on the target share price, which, if all members pay that price will give the farm a balanced budget. However, we want to make it possible for Harvest Kitchen members to adjust their payments to the sliding scale. The sliding scale is intended to broaden the spectrum of people able to be involved in the Farm. If you can pay more than the average target figure you will help another family who can afford less and you will help the Farm work towards its goal of paying the farmers a truly living wage. If you wish to pay less than the target share price, you are welcome to put a negative number in this box and subtract it from your total share price.</i> Whole Share: Subtract up to \$475 for lower end of sliding scale; Add up to \$625 for the upper end. Half share: Subtract up to \$238 for the lower end of the sliding scale; Add up to \$313 for the upper end. If you wish, add a sliding scale adjustment in box E. Entering \$0 will leave you paying the target share price.</p>	<p>E.</p>
<p>F. Membership Involvement Option <i>The Community Farm asks members to choose between volunteering their time or paying an additional fee. Note that volunteer options range from working in the fields to helping with laundry, attending meetings, and helping with computer work. Call the Farm at (734) 433-0261 for more information. Indicate your preference and enter additional payment in box F</i> Whole Share: 15 hours of work OR \$125 Half Share: 7.5 hours of work OR \$62.50</p>	<p>F.</p>
<p>G. Total Farm Membership Additions <i>Add lines E and F and enter total in Box G. This total may be a negative number.</i></p>	<p>G.</p>
